

Vacuum Pumps America Inc.

Handheld Digital Vacuum Gauge HVG-64

Vacuum Pumps America Inc. is No. 1 supplier of best Handheld Digital Vacuum Gauges:

- Robust and Durable
- Ultra fine resolution
- Auto shut off
- ½ second response time
- Convenient built in hanger
- Economically priced
- Factory calibrated
- Versatile with different scales
- Vibration resistance
- Always in stock and ready to ship

Specifications:

- Sensor Type: Thermistor
- Connector Type: Standard ¼ inch male flare fitting and KF16. Other connections available upon request.
- Vacuum Range: 0 – 12,000 Microns (0 – 1,600 Pascals) with vacuum increasing/decreasing indicator when above 12,000 Microns.
- Scale Microns, PSI, InHg, milliBars, Pascals, Torr, milliTorr
- Resolution:
 - 0-200: 1 Micron
 - 201-500: 5 Microns
 - 501-1,000: 10 Microns
 - 1,001-2,000: 50 Microns
 - 2,001-5,000: 250 Microns
 - 5,001-8,000: 500 Microns
 - 8,001-12,000: 1,000 Microns
- Operating Temperature 35°F to 125°F (2°C to 52°C) Range
- Overpressure: 500 PSI max
- Accuracy: +/-10%
- Power Source: 9 Volt Alkaline Battery included
- Continuous Usage: 30 Hours (approximate)
- Auto Shutoff After 10 minutes when vacuum reading is above 12,000 Microns (12 Torr)
